

POWERING DEMOCRACY

The American Council for Election Technology (ACET) is a national, nonpartisan trade association founded in 2022. Our mission is to advance policies and programs that support the use of election technology to ensure secure, accurate, accessible, and transparent elections. ACET provides a collaborative platform for industry leaders to address challenges and develop solutions for election security and accessibility. Our members include major voting system manufacturers, election technology providers, and innovators in ADA compliance. Together, we are a unified voice to advocate for policies that build public trust and advance security.
